McGard assumes no responsibility for the correctness of the application contained within this printed literature. The information listed by McGard is only a guide. McGard assumes no responsibility for misapplication or misuse of the information contained within this printed literature. The user must verify with the vehicle manufacturer and the wheel manufacturer the correct lug nut/bolt thread size, length and shape of seat (cone, radius or flat seat) before installing lug nuts/wheel locks.

McGard reserves the right to make changes in specification and design without any prior notice, or incurring responsibility.

**Important: In case there is more than one part number in an application cell, please compare the shaft length of the original bolt with the shaft length of the locking wheel bolt. If it is a wheel nut, please compare the total length with the total length of the locking wheel nut. Furthermore please also compare the seating surface of the original fastener with the seating surface of the wheel lock (cone seat, radius seat or flat seat).**

**Important : S'il y a plusieurs références dans une cellule, veuillez comparer la longueur de filetage de boulon d'origine avec la longueur de filetage de boulon antivol. Si c'est un écrou, veuillez comparer la longueur totale. Veuillez aussi vérifier le siège de boulon / d'écrou d'origine avec le siège de boulon / d'écrou antivol (conique, sphérique, plat).**
